Basics of Supply Chain Management

ONE WEEK INTENSIVE COURSE Register before 31st May 2011 to get your **FREE ONE YEAR MEMBERSHIP** valued at \$220

Use this course to get your APICS CPIM qualifications off to a flying start. Or just learn the principles of Best Practice Supply Chain Management to help improve your company's profits.

Basics of Supply Chain Management is the first step to completing the 5 modules that comprise the internationally recognised Certified in Production and Inventory Management (CPIM). It provides a basis for individuals and organisations to evaluate their knowledge of production and inventory management against a global standard.

Key Content

Basics of Supply Chain Management covers basic concepts in managing the complete flow of materials in a supply chain. Content includes:

- Demand Management
- Master Planning
- Material Requirements Planning
- Capacity Management and Production Activity Control
- Aggregate Inventory Management
- Item Inventory Management
- Purchasing and Physical Distribution
- Lean/JIT and Quality Systems
- Theory of Constraints
- Sales and Operations Planning

Key Learning Outcomes

Over 5 consecutive days of experiential learning you will learn how to:

- Integrate your supply chain using:

- ◇ Distribution Requirements Planning (DRP)
- ◇ Master Production Scheduling (MPS)
- ◇ Material Requirements Planning (MRP)
- ◇ Vendor Scheduling
- ◇ Lean Thinking
- Develop your understanding of S&OP by adopting a structured communication process to run The Fresh Connection.
- Review a safety stock simulation tool that will show you the principles to enable you to rebalance safety stock levels in your own company for better customer service with less dollars.
- Learn how to reduce the number of products in your current range.
- Review a Sales Forecasting approach that may be applicable in your own organisation

Who will benefit from the course?

A CPIM education is essential for professionals involved in:

- Production and inventory management
- Operations
- Supply chain management
- Procurement
- Materials management
- Purchasing

Cost \$1718 including GST

WHAT OTHERS HAVE SAID ABOUT THE WORKSHOP

"I would definitely recommend this course to anyone who is in the Supply Chain Industry. Even with many years in the industry, I found the "Basics" course to be very in depth, interesting and insightful. A must for anyone in the industry or contemplating a career in any of the Supply Chain

The Fresh Connection Simulation Experience

Compete daily against other teams to achieve the highest Return on Investment over a simulated two and a half years executing your strategies in your new venture, The Fresh Connection Fruit Juice Company. One "round", representing a simulated 6 month period, will be completed each day with the winner receiving an S&OP video/CD by Tom Wallace.

Register your interest today

Strictly limited to 16 attendees. Private sessions may be arranged on your premises if desired.
